

VIFLIX INSTRUCTIONS MANUAL

3 STEP GUIDE TO YOUR PROJECT AT VIFLIX

1 DO THE HOMEWORK

First of all, you need to figure out your video requirements. If its a marketing video, write down a script, find some content (photos, clips) that you want to include in the video. For a wedding or family video, figure out the best moments (we will make it special) and the order of footage. Don't get overwhelmed at this step, just try to set out some goals and find relevant content(photos, clips).Feel free to ask for help and we will do the rest.

WOULD YOU LIKE TO PROVIDE SOME MUSIC?

☐ Yes (\$ 0)

☒ No (Choose the best for me - \$ 5)

I want a company profile video for my digital services company. Keep the video length under 2 mins. Theme should be light and friendly. Here are some shots of my company, the diet product we are launching, a brief product description and the video script <https://docs.google.com/document/d/1smTt7GwA1Rht2l-/edit?usp=sharing> If the script at some point doesn't match any provided footage, use stock footage. Use any music that goes well with the theme. cheers!!!
